1050 SW 6th Ave, Suite 2150, Portland, Oregon 97204

Victor counsels businesses, municipalities, water districts, and public utilities on water quality, hazardous waste management, natural resources, and other environmental concerns. He is passionate about helping clients navigate the complex regulatory frameworks governing industrial dischargers, public water systems, publicly owned treatment works, and manufacturers.

Victor has broad expertise in litigating issues under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), the Resource Conservation and Recovery Act (RCRA), the Clean Water Act (CWA), the Federal Tort Claims Act (FTCA), the Federal Land Policy and Management Act (FLPMA), the National Environmental Policy Act (NEPA), state hazardous waste laws, federal Indian law, tort law, and unfair trade practices statutes. His practice spans federal and state courts in both trials and appeals.

Often, Victor's work intersects with emerging contaminants like PFAS. As a co-author of the PFAS Deskbook (Environmental Law Institute, 2023), and through his robust PFAS practice, Victor is well-versed in the quickly evolving litigation and regulatory landscape surrounding PFAS.

Previously, Victor clerked for the Honorable Harris Hartz in the U.S. Court of Appeals for the Tenth Circuit and the Honorable James Sweeney II in the U.S. District Court for the Southern District of Indiana. Victor graduated from Stanford Law School, where he led a community law pro bono and gained invaluable court experience as a member of the school's criminal prosecution clinic. Before that, he graduated from Stanford University with a Bachelor of Arts in Economics, with distinction.

#### SERVICES & INDUSTRIES

[Clean Water & Water Quality](#)

[PFAS & Emerging Contaminants](#)

[Consumer Products](#)

[State, Municipal, and Local Government](#)

#### EDUCATION

- J.D., Stanford Law School (2020)
- B.A., Stanford University (2017), with distinction
